

LiteView

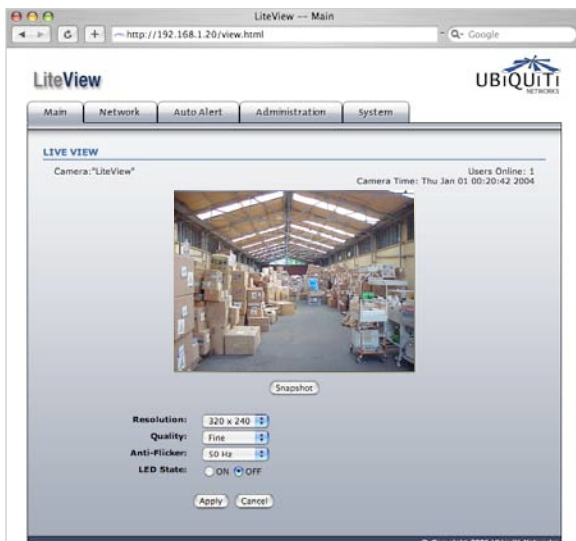

Simple and Robust Outdoor IP Video Surveillance

Introducing LiteView from Ubiquiti Networks. A simple, clean, cost-effective outdoor IP video surveillance solution. Featuring an easy to install waterproof connector kit, 48V Power over Ethernet, and a compact weatherproof enclosure. The LiteView Operating System was designed from the ground-up to quickly provide streaming video, snapshot capability, auto image alerts via e-mail, and support for all platforms and web browsers. LiteView uses Motion JPEG compression to achieve high quality results over limited bandwidth connections. Best of all, the LiteView cameras work seamlessly with Ubiquiti's LiteStation product line for powerful long-range remote security applications.

Technical Specs

Power	48V POE
Compression	Motion JPEG
Resolution	640x480
Outdoor Rating	NEMA4
Operating Temp	-20 to 70 C
Dimensions	23x18x10 cm
Color	White, UV Painted
Weight:	4.2 lb
Included	48V POE Adapter
Contents	Waterproof Kit Mounting Kit

LiteView OS
