mPort™ Serial
mFi Networked Serial Interface
Model: mPort-S
Introduction

Thank you for purchasing the Ubiquiti Networks® mFi® mPort™ Serial. The mPort Serial is designed for use with the mFi platform. Once connected, you can use the mFi Controller software to monitor your devices and define automation rules using your web browser.

Package Contents

- mPort Serial
- Wall-Mount Bracket
- PoE Adapter and Power Cord
- Antenna
- Terminal Block
- Screws (Qty. 4)
- Anchors (Qty. 4)
- Quick Start Guide

System Requirements

- Microsoft Windows Vista, Windows 7, Windows 8, or Mac OS X
- Java Runtime Environment 1.6 (or above)
- Web Browser: Mozilla Firefox, Google Chrome, or Microsoft Internet Explorer 8 (or above)
Hardware Overview

Front View

Power  The Power LED will light steady green when the mPort Serial is properly connected to a power source.

Ethernet  The Ethernet LED will light steady green when an active Ethernet connection is made and flash when there is activity.

Status  The Status LED will light yellow when the mPort Serial is first powered on in factory default mode out of the box. The Status LED will light steady green when the mPort Serial has been successfully integrated into a network and is working properly. The Status LED will flash when the Locate button is used in the mFi Controller software.

Antenna Connector  Connects to the included Antenna.
**Serial DB9 Port** Connects to a switch, router, or other device for remote access.

**Serial TB (Terminal Block) Port** Connects to an industrial networking device for automation, such as script execution from the mFi Controller software.

**USB Port** Reserved for future use.

**Ethernet Port** Connects to the POE port of the PoE Adapter.

**Wall-Mount Bracket** Wall-mounting is optional.

**Hardware Installation**

Remove the Wall-Mount Bracket from the mPort Serial by pressing the Release Tabs.
Wall-Mount (Optional)

1. Position the *Wall-Mount Bracket* with the *Release Tabs* on top.

2. To secure the *Wall-Mount Bracket* to the wall:
   a. Use a pencil to mark the holes on the wall.
   b. Use a 6 mm drill bit to drill the holes in the wall.
   c. Insert the four *Anchors* into the wall.
   d. Insert the *Screws* into the anchors.
3. Angle the mPort Serial so that the notches on the bottom of the Wall-Mount Bracket are inserted into the mPort Serial. Then press the mPort Serial into the Release Tabs and snap it into place.

Antenna Installation (Optional)

The mPort Serial uses the internal antenna by default. If you want to use an external antenna, then attach the included Antenna and configure its use in the mFi Controller software.
Connecting a Serial Device

Each serial port supports RS232, RS422, and RS485. Use the appropriate serial port for your serial cable (not included).

Note: Only one serial port can be used at a time.

Serial DB9

1. Connect one end of the serial cable to the console port of the switch, router, or other device.

   Note: A null modem may be needed; refer to the mFi User Guide at www.ubnt.com/mfi for details.

2. Connect the DB9 end of the serial cable to the Serial DB9 port of the mPort Serial.

Serial TB

The Serial TB port is labeled for RS485 pinout. The table lists the pinouts for RS232, RS422, and RS485. For more information, refer to the mFi User Guide available at www.ubnt.com/mfi

* Technically not needed.
1. Wire one end of the serial cable to an industrial networking device.

Note: Wiring will vary depending on your device.

2. Wire the other end of the serial cable to the *Terminal Block* included with the mPort Serial.

3. Insert the *Terminal Block* into the *Serial TB* port of the mPort Serial.
Connecting Ethernet and Power

1. Connect an Ethernet cable to the *Ethernet* port on the mPort Serial.

2. Connect the other end of the Ethernet cable to the Ethernet port labeled **POE** on the *PoE Adapter*.

3. Connect an Ethernet cable from your LAN to the Ethernet port labeled **LAN** on the *PoE Adapter*.

**Note:** Wi-Fi settings for the mPort Serial can be configured via LAN or by connecting an Ethernet cable directly from your computer to the **LAN** port on the *PoE Adapter*. For details, refer to the *Accessing the Configuration Portal* section.
4. Connect the power cord to the power port on the adapter. Connect the other end of the power cord to a power outlet. The Power LED should light up on the mPort Serial.

Software Download and Installation

For local mFi Controller installations, the mFi Controller software is installed just once when you initially create a mFi network. It is not necessary to go through the software installation process every time you add another mFi device.

The mFi Controller software can be downloaded from the Ubiquiti Networks website.

1. Go to downloads.ubnt.com/mfi
2. Mac users should download mFi.dmg and Windows users should download mFi-installer.exe.
3. Follow the instructions for your computer type.
Mac Users

1. Click the **Install** icon.

2. Click **Continue** and follow the on-screen instructions to install the software.

3. Go to **Go > Applications** and double-click the **mFi** icon.

Proceed to the *Configuring the mFi Controller Software* section.
PC Users

1. Launch **mFi-installer.exe**.
2. Click **Install**.
3. If your computer doesn’t have Java 1.6 or above installed, you will be prompted to install it. Click **Install** to continue.
4. Ensure that the **Start mFi Controller after installation** option is checked and click **Finish**.

**Note:** The mFi Controller software can also be launched from **Start > All Programs**.
Configuring the mFi Controller Software

1. The mFi Controller software startup will begin. Click **Launch a Browser to Manage the Network**.

2. The *mFi Configuration Wizard* will appear the first time you launch the mFi Controller software. On the *Welcome* screen, select your language and country. Click **Next**.

3. Select the device(s) that you want to configure. The **Refresh** button can be used to refresh the list of devices. Click **Next** to continue.
4. Enter an administrator name in the *Admin Name* field. Enter a password in the *Password* and *Confirm* fields. Click **Next**.

5. Click **Finish** to confirm your settings.

6. A login screen will appear for the mFi Controller management interface. Enter the *Admin Name* and *Password* that you created and click **Login**.
Accessing the Configuration Portal

You need to connect to the Configuration Portal to configure any of the following:

• Access to local mFi Controller on a different IP network
• Wireless network access (Wi-Fi settings)

Note: If you are not using these configurations, you do not need to access the Configuration Portal.

The Configuration Portal can be accessed in two ways:

• Connect an Ethernet cable from your computer to the LAN port on the PoE Adapter and configure your computer with a static IP address.
• Connect an Ethernet cable from your DHCP-enabled LAN to the LAN port on the PoE Adapter.

Configuration Portal via Ethernet to Computer

1. Make sure that your computer is connected via Ethernet to the LAN port on the PoE Adapter.

   WARNING: Do not connect the computer to the port labeled POE on the PoE Adapter.

2. Configure the Ethernet adapter on your computer with a static IP address on the 192.168.1.x subnet.

3. Launch your web browser and type **http://192.168.1.20** in the address field. Press **enter** (PC) or **return** (Mac).

4. Go to the Configuration Portal Interface Settings section.
Configuration Portal via LAN with DHCP

If it is not already installed, download the Ubiquiti Device Discovery Tool (v2.3) at www.ubnt.com/download#app

1. Launch the Ubiquiti Device Discovery Tool.
2. A list of Ubiquiti devices on the network will appear. Locate the appropriate device (named M2S) under Product Name and double-click it.

![Ubiquiti Discovery Tool screenshot]

**Note:** If you have more than one of the same device model, you can determine which one you are selecting by checking the Hardware (MAC) Address on the device label.

3. Click WEB UI on the right.

![M2S WEB UI screenshot]
Configuration Portal Interface Settings

1. The login screen will appear. Enter **ubnt** in the *Username* and *Password* fields.

2. The *Main* tab of the *Configuration Portal* will appear. Click the *Configuration* tab.

3. Enter your configuration information on the *Configuration* tab:
mFi Controller  Enter the mFi Controller settings:

a. Enter the mFi Controller address.
   • The IP address and http port used by the Controller. (The port is usually 6080, for example: 192.168.25.161:6080 or mfi.acme.com:6080)

b. Enter the User Name and Password.
   • The admin name and password defined during the mFi Configuration Wizard.

Wireless Settings  To use the mPort Serial on a Wi-Fi network, configure the Wireless Settings:

a. Click Scan for a list of available SSIDs. Select the appropriate SSID or type in the name manually in the SSID field.

b. Select the appropriate Security and Authentication settings for your network.

c. Enter your network key.

After you’ve entered the necessary settings, click Change. You will be asked to apply the changes; click Apply.

4. Log in to the mFi Controller.

5. The mPort Serial icon appears in the left panel under the Drag on to Map heading. Once you’ve customized your map, you can position the mPort Serial in the appropriate location.

For additional details on the mFi Controller software, refer to the User Guide on our website at www.ubnt.com/mfi

## Safety Notices

1. Read, follow, and keep these instructions.
2. Heed all warnings.
3. Only use attachments/accessories specified by the manufacturer.

**WARNING:** Do not use this product in location that can be submerged by water.

**WARNING:** Avoid using this product during an electrical storm. There may be a remote risk of electric shock from lightning.
Electrical Safety Information

1. Compliance is required with respect to voltage, frequency, and current requirements indicated on the manufacturer’s label. Connection to a different power source than those specified may result in improper operation, damage to the equipment or pose a fire hazard if the limitations are not followed.

2. There are no operator serviceable parts inside this equipment. Service should be provided only by a qualified service technician.

3. This equipment is provided with a detachable power cord which has an integral safety ground wire intended for connection to a grounded safety outlet.
   a. Do not substitute the power cord with one that is not the provided approved type. Never use an adapter plug to connect to a 2-wire outlet as this will defeat the continuity of the grounding wire.
   b. The equipment requires the use of the ground wire as a part of the safety certification, modification or misuse can provide a shock hazard that can result in serious injury or death.
   c. Contact a qualified electrician or the manufacturer if there are questions about the installation prior to connecting the equipment.
   d. Protective earthing is provided by Listed AC adapter. Building installation shall provide appropriate short-circuit backup protection.
   e. Protective bonding must be installed in accordance with local national wiring rules and regulations.

Limited Warranty

UBIQUITI NETWORKS, Inc (“UBIQUITI NETWORKS”) warrants that the product(s) furnished hereunder (the “Product(s)”) shall be free from defects in material and workmanship for a period of one (1) year from the date of shipment by UBIQUITI NETWORKS under normal use and operation. UBIQUITI NETWORKS’ sole and exclusive obligation and liability under the foregoing warranty shall be for UBIQUITI NETWORKS, at its discretion, to repair or replace any Product that fails to conform to the above warranty during the above warranty period. The expense of removal and reinstalling of any Product is not included in this warranty. The warranty period of any repaired or replaced Product shall not extend beyond its original term.
Warranty Conditions

The above warranty does not apply if the Product:

(I) has been modified and/or altered, or an addition made thereto, except by Ubiquiti Networks, or Ubiquiti Networks’ authorized representatives, or as approved by Ubiquiti Networks in writing;

(II) has been painted, rebranded or physically modified in any way;

(III) has been damaged due to errors or defects in cabling;

(IV) has been subjected to misuse, abuse, negligence, abnormal physical, electromagnetic or electrical stress, including lightning strikes, or accident;

(V) has been damaged or impaired as a result of using third party firmware;

(VI) has no original Ubiquiti MAC label, or is missing any other original Ubiquiti label(s); or

(VII) has not been received by Ubiquiti within 30 days of issuance of the RMA.

In addition, the above warranty shall apply only if: the product has been properly installed and used at all times in accordance, and in all material respects, with the applicable Product documentation; all Ethernet cabling runs use CAT5 (or above), and for outdoor installations, shielded Ethernet cabling is used, and for indoor installations, indoor cabling requirements are followed.

Returns

No Products will be accepted for replacement or repair without obtaining a Return Materials Authorization (RMA) number from UBIQUITI NETWORKS during the warranty period, and the Products being received at UBIQUITI NETWORKS’ facility freight prepaid in accordance with the RMA process of UBIQUITI NETWORKS. Products returned without an RMA number will not be processed and will be returned freight collect or subject to disposal. Information on the RMA process and obtaining an RMA number can be found at: www.ubnt.com/support/warranty.

Disclaimer

EXCEPT FOR ANY EXPRESS WARRANTIES PROVIDED HEREIN, UBIQUITI NETWORKS, ITS AFFILIATES, AND ITS AND THEIR THIRD PARTY DATA, SERVICE, SOFTWARE AND HARDWARE PROVIDERS HEREBY DISCLAIM AND MAKE NO OTHER REPRESENTATION OR WARRANTY OF ANY KIND, EXPRESS, IMPLIED OR STATUTORY, INCLUDING, BUT NOT LIMITED TO, REPRESENTATIONS, GUARANTEES, OR WARRANTIES OF MERCHANTABILITY, ACCURACY, QUALITY OF SERVICE OR RESULTS, AVAILABILITY, SATISFACTORY QUALITY, LACK OF VIRUSES, QUIET ENJOYMENT, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT AND ANY WARRANTIES ARISING FROM ANY COURSE OF DEALING, USAGE OR TRADE PRACTICE IN CONNECTION WITH SUCH PRODUCTS AND SERVICES.
BUYER ACKNOWLEDGES THAT NEITHER UBIQUITI NETWORKS NOR ITS THIRD PARTY PROVIDERS CONTROL BUYER’S EQUIPMENT OR THE TRANSFER OF DATA OVER COMMUNICATIONS FACILITIES, INCLUDING THE INTERNET, AND THAT THE PRODUCTS AND SERVICES MAY BE SUBJECT TO LIMITATIONS, INTERRUPTIONS, DELAYS, CANCELLATIONS AND OTHER PROBLEMS INHERENT IN THE USE OF COMMUNICATIONS FACILITIES. UBIQUITI NETWORKS, ITS AFFILIATES AND ITS AND THEIR THIRD PARTY PROVIDERS ARE NOT RESPONSIBLE FOR ANY INTERRUPTIONS, DELAYS, CANCELLATIONS, DELIVERY FAILURES, DATA LOSS, CONTENT CORRUPTION, PACKET LOSS, OR OTHER DAMAGE RESULTING FROM ANY OF THE FOREGOING. In addition, UBIQUITI NETWORKS does not warrant that the operation of the Products will be error-free or that operation will be uninterrupted. In no event shall UBIQUITI NETWORKS be responsible for damages or claims of any nature or description relating to system performance, including coverage, buyer’s selection of products (including the Products) for buyer’s application and/or failure of products (including the Products) to meet government or regulatory requirements.

Limitation of Liability

EXCEPT TO THE EXTENT PROHIBITED BY LOCAL LAW, IN NO EVENT WILL UBIQUITI OR ITS SUBSIDIARIES, AFFILIATES OR SUPPLIERS BE LIABLE FOR DIRECT, SPECIAL, INCIDENTAL, CONSEQUENTIAL OR OTHER DAMAGES (INCLUDING LOST PROFIT, LOST DATA, OR DOWNTIME COSTS), ARISING OUT OF THE USE, INABILITY TO USE, OR THE RESULTS OF USE OF THE PRODUCT, WHETHER BASED IN WARRANTY, CONTRACT, TORT OR OTHER LEGAL THEORY, AND WHETHER OR NOT ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

Note

Some countries, states and provinces do not allow exclusions of implied warranties or conditions, so the above exclusion may not apply to you. You may have other rights that vary from country to country, state to state, or province to province. Some countries, states and provinces do not allow the exclusion or limitation of liability for incidental or consequential damages, so the above limitation may not apply to you. EXCEPT TO THE EXTENT ALLOWED BY LOCAL LAW, THESE WARRANTY TERMS DO NOT EXCLUDE, RESTRICT OR MODIFY, AND ARE IN ADDITION TO, THE MANDATORY STATUTORY RIGHTS APPLICABLE TO THE LICENSE OF ANY SOFTWARE (EMBEDDED IN THE PRODUCT) TO YOU. The United Nations Convention on Contracts for the International Sale of Goods shall not apply to any transactions regarding the sale of the Products.
Compliance

FCC

Changes or modifications not expressly approved by Ubiquiti Networks, Inc. could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause interference, and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

NOTE: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operations of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

RF Exposure Warning

The transceiver described here emits radio frequency energy. Although the power level is low, the concentrated energy from a directional antenna may pose a health hazard. Do not allow people to come closer than 20 cm to the antenna when the transmitter is operating.

Additional information on RF exposure is available on the Internet at http://www.fcc.gov/encyclopedia/oet-bulletins-line

L’émetteur-récepteur décrit ici émet de l’énergie de fréquence radio. Bien que le niveau de puissance est faible, l’énergie concentrée à partir d’une antenne directionnelle peut présenter un danger pour la santé. Ne pas permettre aux gens de se rapprocher de 20 cm à l’antenne lorsque l’émetteur est en marche.

Des renseignements supplémentaires sur l’exposition aux RF est disponible sur Internet à http://www.fcc.gov/encyclopedia/oet-bulletins-line
Industry Canada

Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.

Conformément à la réglementation d’Industrie Canada, le présent émetteur radio peut fonctionner avec une antenne d’un type et d’un gain maximal (ou inférieur) approuvé pour l’émetteur par Industrie Canada. Dans le but de réduire les risques de brouillage radioélectrique à l’intention des autres utilisateurs, il faut choisir le type d’antenne et son gain de sorte que la puissance isotrope rayonnée équivalente (p.i.r.e.) ne dépasse pas l’intensité nécessaire à l’établissement d’une communication satisfaisante.

This radio transmitter (FCC ID: SWX-VPS, IC: 6545A-VPS) has been approved by Industry Canada to operate with the antenna types listed below with the maximum permissible gain and required antenna impedance for each antenna type indicated. Antenna types not included in this list, having a gain greater than the maximum gain indicated for that type, are strictly prohibited for use with this device.

Le présent émetteur radio (FCC ID: SWX-VPS, IC: 6545A-VPS) a été approuvé par Industrie Canada pour fonctionner avec les types d’antenne énumérés ci-dessous et ayant un gain admissible maximal et l’impédance requise pour chaque type d’antenne. Les types d’antenne non inclus dans cette liste, ou dont le gain est supérieur au gain maximal indiqué, sont strictement interdits pour l’exploitation de l’émetteur.

Antenna Type
Omni with a gain of 4 dBi maximum

Type d’antenne
Omni avec un gain de 4 dBi maximale

CE Marking

CE marking on this product represents the product is in compliance with all directives that are applicable to it.
European Directive 2002/96/EC requires that the equipment bearing this symbol on the product and/or its packaging must not be disposed of with unsorted municipal waste. The symbol indicates that this product should be disposed of separately from regular household waste streams. It is your responsibility to dispose of this and other electric and electronic equipment via designated collection facilities appointed by the government or local authorities. Correct disposal and recycling will help prevent potential negative consequences to the environment and human health. For more detailed information about the disposal of your old equipment, please contact your local authorities, waste disposal service, or the shop where you purchased the product.
Español
La Directiva 2002/96/CE de la UE exige que los equipos que lleven este símbolo en el propio aparato y/o en su embalaje no deben eliminarse junto con otros residuos urbanos no seleccionados. El símbolo indica que el producto en cuestión debe separarse de los residuos domésticos convencionales con vistas a su eliminación. Es responsabilidad suya desechar este y cualesquiera otros aparatos eléctricos y electrónicos a través de los puntos de recogida que ponen a su disposición el gobierno y las autoridades locales. Al desechar y reciclar correctamente estos aparatos estará contribuyendo a evitar posibles consecuencias negativas para el medio ambiente y la salud de las personas. Si desea obtener información más detallada sobre la eliminación segura de su aparato usado, consulte a las autoridades locales, al servicio de recogida y eliminación de residuos de su zona o pregunte en la tienda donde adquirió el producto.

Français
La directive européenne 2002/96/CE exige que l’équipement sur lequel est apposé ce symbole sur le produit et/ou son emballage ne soit pas jeté avec les autres ordures ménagères. Ce symbole indique que le produit doit être éliminé dans un circuit distinct de celui pour les déchets des ménages. Il est de votre responsabilité de jeter ce matériel ainsi que tout autre matériel électrique ou électronique par les moyens de collecte indiqués par le gouvernement et les pouvoirs publics des collectivités territoriales. L’élimination et le recyclage en bonne et due forme ont pour but de lutter contre l’impact néfaste potentiel de ce type de produits sur l’environnement et la santé publique. Pour plus d’informations sur le mode d’élimination de votre ancien équipement, veuillez prendre contact avec les pouvoirs publics locaux, le service de traitement des déchets, ou l’endroit où vous avez acheté le produit.

Italiano
La direttiva europea 2002/96/EC richiede che le apparecchiature contrassegnate con questo simbolo sul prodotto e/o sull’imballaggio non siano smaltite insieme ai rifiuti urbani non differenziati. Il simbolo indica che questo prodotto non deve essere smaltito insieme ai normali rifiuti domestici. È responsabilità del proprietario smaltire sia questi prodotti sia le altre apparecchiature elettriche ed elettroniche mediante le specifiche strutture di raccolta indicate dal governo o dagli enti pubblici locali. Il corretto smaltimento ed il riciclaggio aiuteranno a prevenire conseguenze potenzialmente negative per l’ambiente e per la salute dell’essere umano. Per ricevere informazioni più dettagliate circa lo smaltimento delle vecchie apparecchiature in Vostro possesso, Vi invitiamo a contattare gli enti pubblici di competenza, il servizio di smaltimento rifiuti o il negozio nel quale avete acquistato il prodotto.
UBIQUITI NETWORKS declares that this UBIQUITI NETWORKS device is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.
Hawnhekk, UBIQUITI NETWORKS, tiddikjara li dan il-mezz UBIQUITI NETWORKS huwa konformi mar-rekwiżiti essenzjali u dispożizzjonijiet rilevanti oħrajn ta 'Direttiva 1999/5/EC.

Herved UBIQUITI NETWORKS, erklærer at denne UBIQUITI NETWORKS enheten, er i samsvar med de grunnleggende kravene og andre relevante bestemmelser i direktiv 1999/5/EF.

Týmto UBIQUITI NETWORKS, prehlasuje, že toto UBIQUITI NETWORKS zariadenie, je v súlade so základnými požiadavkami a ďalšími relevantnými ustanoveniami smernice 1999/5/ES.

Härmed UBIQUITI NETWORKS, intygar att denna UBIQUITI NETWORKS enhet är i överensstämme med de väsentliga egenskapskrav och övriga relevanta bestämmelser som framgår av direktiv 1999/5/EG.

Por medio de la presente UBIQUITI NETWORKS declara que este dispositivo UBIQUITI NETWORKS, cumple con los requisitos esenciales y cualesquiera otras disposiciones aplicables o exigibles de la Directiva 1999/5/CE.

Niniejszym, Ubiquiti Networks, oświadcza, że urządzenie UBIQUITI NETWORKS, jest zgodny z zasadniczymi wymaganiami oraz pozostałymi stosownymi postanowieniami Dyrektywy 1999/5/EC.

UBIQUITI NETWORKS declara que este dispositivo UBIQUITI NETWORKS, está conforme com os requisitos essenciais e outras disposições da Directiva 1999/5/CE.

Prin prezenta, UBIQUITI NETWORKS declară că acest dispozitiv UBIQUITI NETWORKS este în conformitate cu cerințele esențiale și alte prevederi relevante ale Directivei 1999/5/CE.
